1. Respect your colleagues
2. Don't discriminate
3. Communicate openly and honestly
4. Never denigrate a colleague in front of others
5. Support and play an active part in professional organizations
6. Provide clear and comprehensive notes for referral patients
7. Be aware of the health, wellbeing and safety of yourself and of fellow colleagues
8. Consider (early) mediation to resolve conflicts
9. Share your knowledge and give your support, especially to younger colleagues
10. Commit to continuing professional education
11. Allow and listen to criticism
