Dr Umesh Karkare
Dr Jerzy Gawor
Overview of activities in 2020

The CSC developed and tested a new scoring system to assess bids for the World Congress. The new system was validated against the current system and has been modified based on this validation. The next round of bids will be scored with this new system which has removed some of the subjective scores, re-assessed the score weighting system, and made the scoring more systematic.

Five countries placed bids for the 2024 World Congress. After bid scoring and a virtual conference, the winning bid was awarded to the combined bidding organizations of Shanghai and Beijing. Congratulations to both groups for an excellent combined bid.

The CSC has started to implement our succession plan to bring new members to the committee. By the end of 2020, 2 new members will be added with 3 more throughout 2021.

Plans and priorities for 2021

Bid scoring and assessment of the bids for 2025 will be a part of the ongoing activities of the CSC. In addition, we are developing stronger ties with the Continuing Education Committee to develop a more co-ordinated delivery of high quality continuing education through the many CEC programs and the World Congress.
