Overview of activities in 2020

The LNC is an administrative committee of WSAVA, whose main role is to identify and encourage members with the potential for leadership within the organisation. The committee also provides the checks and balances to help ensure inclusivity and transparency within WSAVA committees.

Plans and priorities for 2021

2020 threw up immense challenges for WSAVA, as it did for the world. The LNC continued its work reviewing new member association applications prior to the virtual AGM.

A number of WSAVA committees put out calls for new members in 2020 - the LNC reviewed job descriptions ensuring they adhered to the Nomination and Selection protocol and the Membership ToR, we checked all nominations for any conflicts of interest or discrepancies and reviewed the selections.

Two new committees are in the process of being formed - LNC plays a role in liaising with the person(s) given the brief by the EB to form a new committee in clarifying the processes needed, plus monitors and checks the nominations and selections.

A report was produced outlining recommendations and points of discussion regarding WSAVA committees for the EB.
