Overview of activities in 2020

In the first few months of 2020, the CEC had been working hard to plan events in countries all over the world.

Unfortunately, none of the events were able to take place due to the global pandemic which resulted in all face-to-face CE plans to be cancelled for 2020.

Plans and priorities for 2021

Developing online CE courses to support and replace the traditional face-to-face CE events with the use of webinars and the WSAVA Academy.

To organize some face-to-face CE events in countries where COVID-19 is no longer a risk.
