Overview of activities in 2021

2021 WSAVA FECAVA PSAVA Virtual Congress, March 2021
- Finalization of scientific program
- Last minute preparation and contacts with speakers and PCO
- Moderation of multiple sessions by SC members

2021 Virtual Global WSAVA Congress, November 2021
- Creation and coordination of the scientific program
- Communications with speakers and PCO
- Creation and publication of general guidelines on how to write a good scientific abstract
- Review of scientific abstracts submitted for presentation
- Moderation of multiple sessions by SC members

Planned activities for 2022

Creating an outstanding program for the 2022 WSAVA Congress that meets the needs of the Latin American WSAVA community and is attractive to the worldwide WSAVA Community.

Create a foundation level research course that will be useful to members of the global WSAVA Community interested in developing new research skills or strengthening existing research skills.

Continue to provide evidence-based scientific expertise in the review of various WSAVA initiatives and projects.

2022 WSAVA Congress in Lima, Peru
- Design and coordination of the scientific program
- Review of abstracts submitted for presentation
  - Selection of speakers for state-of-the-art lectures

Development of a Course for Research Basics
This course will aim to help veterinarians interested in acquiring new skills or strengthening existing skills for the planning, execution and reporting of clinical or basic scientific research in the field of small animal veterinary medicine

Evaluation of candidates nominated for the 2022 WSAVA Scientific Achievement Award

Review of proposals submitted for clinical research funding under the AFSCAN program (WSAVA Foundation)
