Dr Brook Niemiec

MEMBERS
Dr Jerzy Gawor
Dr Kymberley Stewart
Dr David Clarke
Dr Gottfried Mortenegg
Dr Marco Giosso
Dr Ana Nemec
Dr Paulo Stegall
Dr Marge Chandler
Dr Cedric Tutt
Overview of activities in 2021

In 2020/2021 the committee transitioned away from specialists and instead focused on "ethusiasts" to help spread the information in their geographic areas. We have also added a veterinary nurse to our ranks. As with all of the world, our project has stalled a bit in 2021. The Committee took part and created a stream for the virtual congress. In addition, we have performed a few webinars on Behalf of WSAVA. This year brought the first of our client "toolkits", which is on dental homecare, which is now being approved by the EB. We expect ones on oral exam and periodontal disease to be ready next year. Dr. Niemiec presented at FIAVAC in November. We are currently putting together a lecture/workshop tour for Latin America as an extension of the TTT event a few years back as well as preparing the stream and 1 health meeting in Lima.

Planned activities for 2022

The GDC is looking forward to holding several events surrounding the congress. Canine Oral Pathology webinar to be conducted and further updated to the WSAVA Academy.
